- **Quotations from the BT3P foundation paper**

"We as BT3P will no longer stand idly by and watch these practices of the German Bundestag and the states, communities and municipalities. Our common history, which has brought us together in different ways, obliges us to stand up for universal human rights and against racism and colonialism. We will successfully overturn the resolution of the Bundestag and thus contribute to the general debate in Germany finally changing in favour of the oppressed Palestinians."

#BT3P #RightToBoycott #FreedomOfExpression #RightToBDS

"We must state: In the entire German Bundestag not a single parliamentarian raised her/his voice clearly and unconditionally in favour of the oppressed and of international law. This decision and the widespread systematic obstruction of a human rights campaign will one day be considered by the general public as the equivalent of supporting the South African apartheid state and the defamation and criminalization of the liberation movement there."

#BT3P #RightToBoycott #FreedomOfExpression #RightToBDS

"What unites us three plaintiffs as politically thinking and acting persons is our unconditional commitment to human rights. We oppose all forms of racism, discrimination and oppression without any exception. Our commitment to the Palestinian cause and BDS arises from this very obligation and from these values."

#BT3P #RightToBoycott #FreedomOfExpression #RightToBDS

"Last but not least, however, the Palestinians and German-Palestinians themselves are also affected -and crucially so. On top of expulsion and exile, apartheid and occupation, omnipresent threat and humiliation, they are accused of anti-Semitism in Germany. The cry for justice and dignity and human rights is turned upside down and the oppressed is vilified and labelled by top politicians as alleged hater and racist."

- **Other useful quotations**

"We know all too well that our freedom is incomplete without the freedom of the Palestinian people."

Nelson Mandela, 1997

"Governments which criminalize or unreasonably restrict BDS activities should end these measures and instead ensure that BDS advocates can freely express their views and conduct their campaigns without harassment or threat of prosecution."

Amnesty International, 2020
